**RC Memo 2008-008, dated October 20, 2008, is rescinded and replaced with this RC Memo 2009 - 009 dated July 1, 2009.**

The attached document consists of the Emergency Vehicle Operator Courses (EVOC) for Emergency Medical Service (EMS) vehicle operation based upon the United States Department of Transportation (USDOT) Objectives, as recognized by the Pennsylvania Department of Health (Department) for use within the Commonwealth of Pennsylvania.

Effective immediately:

1. EVOC programs and certificates of completion previously accepted by the regional EMS Council Offices across the Commonwealth of Pennsylvania, from the present date of this memo retroactive to 1995, that met or exceeded the USDOT EVOC Objectives, consisting of classroom and practical hands-on behind the wheel student driving components, were considered to meet the requirements of the Department at that time for emergency vehicle operation.
2. EVOC offered as per the attached approved curriculum document from the specific date noted, whether conducted as a stand alone Ambulance course or one combined with other type emergency vehicles, consisting of the safe, practical hands-on behind the wheel driving exercise with the student/candidate experiencing the type of vehicle(s) to which he/she would normally be assigned, is considered to currently meet the requirements of the Department, until such time a refresher program is indicated or required by the Department. Driving simulators are not acceptable at this time.

From this date forward, only those programs meeting or exceeding the most current U.S. Department of Transportation Emergency Vehicle Operator Course (Ambulance) National Standard Curriculum, and pre-approved and recognized by the Department will be acceptable.
